Wolfgang Nejdl, Univ. of Hannover (Germany)
Andrew Odlyzko, AT&T Labs – Research (USA)
Harri Oinas-Kukkonen, Univ. of Oulu (Finland)
Susana Pajares Tosca, Univ. Complutense de Madrid (Spain)

Samuel Rebelsky, Grinnell College (USA)
Vytautas Reklaitis, Kaunas Univ. of Technology (Lithuania)
Antoine Rizk, Euroclld (France)
Nick Scherbakov, IICM, Graz Univ. of Technology (Austria)
Gunter Schlageter, Univ. of Hagen (Germany)
Klaus Schmaranz, IICM, Graz Univ. of Tech. (Austria)
Frank Shipman, Texas A&M Univ. (USA)
Simeon Simoff, Univ. of Sydney (Australia)
Marcus Specht, GMD (Germany)
Daniel Suthers, Univ. of Hawaii (USA)
Martin Svensson, Univ. of Stockholm/Swedish Institute of Computer Science (Sweden)
Bruce Thomas, Univ. of South Australia (Australia)
Daniel Tietze, GMD-IPSI (Germany)
Klaus Tochtermann, FAW Ulm (Germany)
Ivan Tomek, Jodrey School of Computer Science (Canada)
Jan Treur, Vrije Universiteit (The Netherlands)
Ellen Walker, Hiram College (USA)
Martin Wessner, GMD-IPSI (Germany)
Bebo White, Stanford Linear Accelerator Center (USA)
Jan Wibe, NTNU (Norway)
Uffe K. Wiil, Aalborg Univ. Esbjerg (Denmark)
Erik Wilde, Swiss Federal Institute of Tech. (Switzerland)
Romain Zeiliger, CNRS-GATE (France)

Committee for Medical Applications of the Web
Steffen Achenbach, Philips Univ. (Germany)
Clemens Chizzali-Bonfadini, Univ. of Vienna (Austria)
Paul Compton, Univ. of New South Wales (Australia)
Caroline M. Crawford, Univ. of Houston - Clear Lake (USA)
Michael Criley, St. Johns Cardiovascular Research Center (USA)
Kaye Cussen, Practicing Physician (Australia)
Joan Freedman, Johns Hopkins School of Medicine (USA)
William Frederick Gaettinger, Univ. of Reno (USA)
Gunther Gell, Univ. of Graz (Austria)
Kiyonari Inamura, Osaka Univ. (Japan)
Monika P. Kuzminska, Harbor-UCLA Medical Center (USA)
Heinz Lemke, Technical Univ. of Berlin (Germany)
John Lister, Massachusetts General Hospital (USA)
Slawomir Lobodzinski, California State Univ. (USA)
Rodger Marion, Univ. of Texas (USA)
Herbert K. Matthes, Hannover Medical School (Germany)
Eckhard Schneider, Practicing Physician (Germany)
Claus Theisen, Practicing Physician (Germany)
Gita Varagoor, Univ. of Texas (USA)
Peter Waegeman, Medical Records Institute (USA)
Jack Wilson, Scientific Software Solutions (USA)
The Association for the Advancement of Computing in Education (AACE) is an international, non-profit educational organization. The Association’s purpose is to advance the knowledge, theory, and quality of teaching and learning at all levels with information technology. This purpose is accomplished through the encouragement of scholarly inquiry related to technology in education and the dissemination of research results and their applications through AACE sponsored publications, conferences, and other opportunities for professional growth.

AACE members have the opportunity to participate in topical and regional divisions/societies/chapters, high-quality peer-reviewed publications, and conferences.

Join with fellow professionals from around the world to share knowledge and ideas on research, development, and applications in information technology and education. AACE’s membership includes researchers, developers, and practitioners in schools, colleges, and universities; administrators, policy decision-makers, professional trainers, adult educators, and other specialists in education, industry, and government with an interest in advancing knowledge and learning with information technology in education.

Membership Benefit Highlights

- Gain professional recognition by participating in AACE sponsored international conferences
- Enhance your knowledge and professional skills through interaction with colleagues from around the world
- Learn from colleagues’ research and studies by receiving AACE’s well-respected journals and books
- Receive a subscription to the Professional Member periodical Educational Technology Review
- Receive discounts on multiple journal subscriptions, conference registration fees, proceedings books & CD-ROMs
### Abstracts for all journal issues are available at www.aace.org/pubs

The exchange of ideas and experiences is essential to the advancement of the field and the professional growth of AACE members. AACE sponsors conferences each year where members learn about research, developments, and applications in their fields, have an opportunity to participate in papers, panels, poster/demonstrations and workshops, and meet invited speakers.

ED-MEDIA 2001
World Conference on Educational Multimedia, Hypermedia & Telecommunications

JUNE 25-30, 2001 • TAMPERE, FINLAND
ED-MEDIA - World Conference on Educational Multimedia, Hypermedia & Telecommunications

This annual conference serves as a multidisciplinary forum for the discussion of the latest research, developments, and applications of multimedia, hypermedia, and telecommunications for all levels of education.

WebNet 2001
World Conference on the WWW and Internet

OCT. 23-27, 2001 • ORLANDO, FL USA
WebNet - World Conference on the WWW & Internet

This annual conference facilitates the exchange of information in these major topics: Commercial, Business, Professional, and Community Applications; Education Applications; Electronic Publishing and Digital Libraries; Ergonomic, Interface, and Cognitive Issues; General Web Tools and Facilities; Medical Applications of the Web; Personal Applications and Environments; Societal Issues, including Legal, Standards, and International Issues; and Web Technical Facilities.

SITE 2001
Society for Information Technology & Teacher Education International Conference

MARCH 5-10, 2001 • ORLANDO, FL USA
SITE - Society for Information Technology and Teacher Education International Conference

This conference, held annually, offers opportunities to share ideas and expertise on all topics related to the use of information technology in teacher education and instruction about information technology for all disciplines in preservice, inservice, and graduate teacher education.

Co-Sponsored Conferences

ICCE/ICCAI—International Conference on Computers in Education/International Conference on Computer-Assisted Instruction

ICCE/ICCAI is an annual event focusing on a broad spectrum of interdisciplinary research topics concerned with theories, technologies and practices of applying computers in education. It provides a forum for interchange among educators, cognitive and computer scientists, and practitioners throughout the world, especially from the Asia-Pacific region.

NOVEMBER 21-24, 2000 • TAIPEI, TAIWAN
Join today and keep up-to-date on the latest research and applications!

AACE Journals
Please check below the journal(s)/membership(s) you wish to receive:
❑ WebNet Journal: Internet Technologies, Applications & Issues
❑ Jrl. of Computers in Math and Science Teaching (JCMST) Computers in Math and Science Teaching (M/SET) Division
❑ Jrl. of Interactive Learning Research (JILR) Interactive Learning Research Division
❑ Jrl. of Educational Multimedia and Hypermedia (JEMH) Educational Multimedia and Hypermedia (ED-MEDIA) Division
❑ International Jrl. of Educational Telecommunications (IJET) Educational Telecommunications Division
❑ Jrl. of Technology and Teacher Education (JTATE) Society for Information Technology and Teacher Education (SITE)
❑ Information Technology in Childhood Education Annual (ITCE) Computing in Childhood Education Division

Library/Institutional Subscriptions
❑ WebNet Journal: Internet Technologies, Applications & Issues $115
❑ Jrl. of Computers in Math and Science Teaching (JCMST) $115
❑ Jrl. of Interactive Learning Research (JILR) $115
❑ Jrl. of Educational Multimedia and Hypermedia (JEMH) $115
❑ Int’l Jrl. of Educational Telecommunications (IJET) $115
❑ Jrl. of Technology and Teacher Education (JTATE) $115
❑ Information Technology in Childhood Education Annual (ITCE) $85
❑ Educational Technology Review (ETR) $45
Non-U.S. postage: add $15 for shipping EACH Journal outside the U.S. $ ________ TOTAL $ ________

Professional & Student Memberships
Annual membership includes a choice of AACE-sponsored journals, membership in a related Division/Society, a subscription to Educational Technology Review (member magazine), discounts for conferences, proceedings books & CD-Roms. Please check below the Journal(s)/membership(s) you wish to receive:

T. Craig Montgomerie, University of Alberta, CANADA; Valerie Irvine, University of Alberta, CANADA

Integrated CAI System for Language Education ................................................................................................. 924
Makoto Nakayama, Waseda University, Japan; Yusuke Yanagida, Waseda University, Japan; Shinichi Fujita, Waseda University, Japan; ChunChen Lin, Tokyo Foreign Language University, Taiwan; Seinosuke Narita, Waseda University, Japan

Learning Web Communication Through the Experiments .................................................................................. 926
Eriko Niwa, Sanno University, Japan

Plugged In: Connecting with Students in an Online Learning Community .......................................................... 928
Barbara O’Brien, Wright State University, USA; Alice Renner, Wright State University, USA

Collaborative Web Site Construction as an Instructional Tool ............................................................................ 931
Jeffrey Parker, North Carolina A&T State University, USA

Teaching in a Synchronous and Asynchronous Environment ............................................................................ 933
Melissa Lee Price, Staffordshire University, United Kingdom; Paul Gutherson, Staffordshire University, United Kingdom

From Videoconferencing to Webcasting .................................................................................................................. 935
Patricia Reynolds, King’s College London, UK; Robin Mason, Open University, UK; Francis Carol, Royal London Hospital, UK; Eaton Ken, Eastman Dental Institute, UK; Edward Odell, King’s College London, UK

Constructivist Education: Comparison of Traditional & Media Enhanced Approaches .................................... 937
Paula Roberts, Trinity College, Ireland; Alan Mulally, Trinity College, Dublin

Image Quality Assessment in Web-Based 3D Computer Graphics ........................................................................ 939
Dah Chian Shen, Asahi University, Japan; Marion R. Finley, Jr., Asahi University, Japan

Virtual Spaces Applied to Tele-Learning - an M2COTS Approach ..................................................................... 941
Yuki Sogabe, Asahi University, Japan; Hironao Mase, Asahi University, Japan; Marion R. Finley, Jr., Asahi University, Japan

Learning Collaboratively in a Web based Environment .......................................................................................... 943
Elizabeth Stacey, Deakin University, Australia

Clinical Reasoning Skills in the Pediatric Occupational Therapy Course .......................................................... 945
Miriam Struck, Towson University, USA

Using Web-Based Course Tools to Facilitate Committee Work ......................................................................... 947
M.O. Thirunarayanan, Florida International University, USA; Aixa Perez-Prado, Florida International University, USA; ; ; ; ; ;

Strategies for Coping with the “Deluge of Electronic Information” or “e-Deluge” .................................................. 949
M.O. Thirunarayanan, Florida International University, USA

Making the most of support resources: a methodology to handle the rapid growth of on-line courses ............................................................................. 951
Eric Uyttebrouck, Université Libre de Bruxelles, Belgium; Joëlle Dequesne, Université Libre de Bruxelles, Belgium
Looking for Alternative Ways to Query Database through the Web: an Iconic Approach with IVQS
Marcello, Valeri, University of Rome, Italy; Flavio, Fontana, ENEA - University of Rome, Italy; Marina, Moscarini, University of Rome, Italy

Upgrading Face to Face Higher Education Learning using a Web based environment
Carlos Vaz de Carvalho, Instituto Politécnico do Porto, PORTUGAL; Altamiro Machado, Universidade do Minho, PORTUGAL

In-Service Training of Trainers in a Web - Based Environment
Georgios Voutsinos, Pedagogical Institute, GREECE; Athina Plessa-Pappadaki, University of Thrace, GREECE; Christina Metaxaki-Kossionides, University of Thrace, GREECE

Learner-Content Interaction in Web-Based-Instruction
Charles Wakefield, U. T. Permian Basin, USA

Can Considerations of Learning Styles Improve Web-Based Learning?
Deborah Walters, University at Buffalo (SUNY), USA; Christopher Egert, University at Buffalo (SUNY), USA

A Surprise for Teacher: Web Sites as coursework Submissions
Craig Whitehead, University of Auckland, New Zealand

Enhancement of Technical Courses with Web Audio
Daniel Wilson, Southern Oregon University, USA

An Astronomical Observatory on the Net: a project of a telescope online.
Anna Auricchio, Astronomical Observatory of Capodimonte, Italy; Enrico Cascone, Astronomical Observatory of Capodimonte, Italy; Gennaro Cretella, Astronomical Observatory of Capodimonte, Italy; Gianfranco Spirito, Astronomical Observatory of Capodimonte, Italy

Developing Best Practices for Prospective Teachers and Mentors with Technology
Linda Bennett, University of Missouri-Columbia, USA

ETRDL: a Digital Library for the European IT Community
Stefania Biagioni, IEI - CNR, Italy; Carlo Carlesi, IEI - CNR, Italy; Pasquale Pagano, IEI - CNR, Italy

The Illusionist, an environment for building pedagogical agents
Eleonora Bilotta, University of Calabria, Arcavacata di Rende (CS) Italy

The Connections Project
William Bolen, Nebraska ESU 10, US; John LeMay, Nebraska ESU 17, US; Stucy VanBorkum, Nebraska ESU 16, US

Web Based Instructional Delivery Systems: The Story of One Program’s Exploration Process
Marty Bray, University of North Carolina at Charlotte, USA; Claudia Flowers, University of North Carolina at Charlotte, USA

Redesigning the Traditional Classroom to a Technology Learning Facility
Barbara Brazon, Penn State University Wilkes-Barre Campus, USA; Mary Lynn Brannon, Penn State University Worthington Scranton Campus, USA

The Electronic Portfolio: An Assessment Tool for Online College Courses
Margaret Burk, Muskingum College, USA; Rosemary Carlson, Morehead State University, USA; Bridgett Davis, Morehead State University, USA

Software Tutors Fulfilling Curriculum Topics
Carol Redfield, St. Mary's University, USA

HEPAXPERT-III/WWW: An Interactive Knowledge Base For Interpretation Of Serologic Tests For Hepatitis
Clemens Chizzali-Bonfadin, University of Vienna, Austria; Klaus-Peter Adlassnig, University of Vienna, Austria; Andrea Rappelsberger, University of Vienna, Austria

A Web-Based Case Library to Support Learning
Susan Colaric, Penn State University, USA

Impacting Learning Environments from PreKindergarten Through Graduate School: Technologically Appropriate Professional Development and Classroom Integration Opportunities for Educators
Caroline M. Crawford, University of Houston – Clear Lake, USA

The technological redesign of two education courses: a work-in-progress
staudt denise, university of the incarnate word, usa; michael risku, university of the incarnate word, usa

Bridging the Gender Gap: Girls R.O.C.
Virginia Eaton, University of Louisiana at Monroe, USA; Charlotte Owens, University of Louisiana at Monroe, USA; Kim Taylor, University of Louisiana at Monroe, USA
WWW-applications in Teaching of Introduction to Power Engineering ............................................. 973

Pekka Saari, Tampere University of Technology, Finland; Pekka Laitinen, Tampere University of Technology, Finland; Tuja Mannila, Tampere University of Technology, Finland; Tommi Ristimäki, Tampere University of Technology, Finland; Tommi Keikko Leena Korpinen, Tampere University of Technology, Finland

Web Based Learning Environment: To Follow the Instructions ......................................................... 973

Nicoletta Sala, University of Italian Switzerland, Switzerland

Developing Website with a Business and a Software Engineering Approach .................................. 974

Joaquim Santos Neto, Rio Sul Airlines / COPPE-UFRJ, Brazil; Luiz Roberto Silva Filho, Rio Sul Airlines / COPPE-UFRJ, Brazil; Jose Roberto Blaschek, COPPE-UFRJ, Brazil; Ana Regina da Rocha, COPPE-UFRJ, Brazil; Carla Valle, COPPE-UFRJ, Brazil

Autonomy And Knowledge: Comments On Distance Education Design ........................................... 974

Luiz A. Senna, University of State Rio de Janeiro (UERJ), Brazil

A Hybrid CD-Internet Delivery System for Pharmaceutical Care Laboratory Instruction ............ 974

Robert Shrewsbury, University of North Carolina, United States

The Web: A New Educational Paradigm? ............................................................................................. 974

Renato Soffner, State University of Campinas, Brazil; Eduardo Chaves, State University of Campinas, Brazil

Business Queries on the Web ............................................................................................................... 974

Amanda Spink, The Pennsylvania State University, USA; Okan Guner, The Pennsylvania State University, USA

SMILE: Intelligent Learning Environment Accumulating Personal Styles of Users .......................... 974

Svetoslav Stoyanov, Twente University, The Netherlands; Neli Stoyanova, Twente University, The Netherlands

The Classroom of the Future: Use of the Internet, Video Conferencing and SMARTBoards in Inter Site Collaborative Student Projects ................................................................. 975

Thomas Treadwell, West Chester University, USA; Donna Ashcraft, Clarion University, USA; Bob Mittan, Casper College - UW/C, USA; Paula Edmiston, Matrix Magic, USA; Paul Arsenault, West Chester University, USA; Adel Barimani, West Chester University, USA; Kelly A. McVeigh, West Chester University, USA

A Prototype Web-based Support System for Classroom Teaching .................................................... 975

Yutaka Tsutsumi, Kumamoto Gakuen University, JAPAN; Ryunosuke Fujimoto, Kyushu University, JAPAN; Akira Suganuma, Kyushu University, JAPAN

Considerations for the design and development of on-line instruction in software engineering ................................................................. 975

Shahrzad Vafa, University of Houston-Clear Lake, United States; Edmond Puckett, University of Houston-Clear Lake, United States; Timothy Youngman, University of Houston-Clear Lake, United States

Electronic Portfolios in Assessment of Preservice Teachers ............................................................. 975

Scott Walker, Our Lady of the Lake University, USA

Setanta: a school based intranet project .............................................................................................. 975

Ray Walshe, Dublin City University, Ireland; Margaret Farren, Dublin City University, Ireland; Ray O’Neill, St. Aidans C.B.S., Ireland

Design and Development of Web-based Interactive Tutorials For College Chemistry .................. 976

Joanne Williams, University of Texas, USA; Jonathan D. Harmon, University of Texas, USA

Tomorrow’s Teachers and Tomorrow’s Technology—theT4 Project .................................................. 976

Linda Wilson, Langston University / Tulsa, United States

Gender Equality Through Technology: Dimensions of a New Approach ........................................ 976

Timothy Youngman, University of Houston, United States

Using animation on the Web in teaching plant biology ................................................................. 976

Chong Ho Yu, Arizona State University, USA; Ruvi Wijesuriya, Arizona State University, USA; Angel Jannasch-Pennell, Arizona State University, USA; Samuel DiGangi, Arizona State University, USA; Leslie Towill, Arizona State University, USA

Web-Based Learning and Instruction Support System (WBLISS) ...................................................... 976

Steve Yuen, University of Southern Mississippi, USA; Patrivan Yuen, William Carey College, USA

Beyond Bookmarks: Enriching Web Information. A demonstration of the NESTOR Web Browser and Cartographer .................................................................................................................... 976

Romain Zeiliger, CNRS-GATE, France
